

DATA SCIENCE PROFESSIONAL

GOOGLE DATA ANALYTICS CERTIFICATION | DATA SCIENCE | BUSINESS INTELLIGENCE ANALYSIS

TRACK RECORD OF EXCELLENCE IN DATA SCIENCE & ANALYTICS PROJECTS

Combine a passion for data science with a strong work ethic and educational background

■ ■ ■

- ▶ **Highly Motivated Professional** with a proven ability to design data science solutions with potential for business impact. Leverage expertise in programming languages (Python, R & SQL), data visualization (Power BI) and statistical analysis.
- ▶ **Effective Communicator** able to lead cross-functional collaborations and clearly present technical concepts to technical and non-technical stakeholders. Excel in transforming raw data into visually engaging presentations and dashboards to achieve actionable insights and data-driven decision making.
- ▶ **Analytical Problem Solver** skilled at defining, developing and delivering solutions to complex issues while maintaining excellent attention to detail and accuracy. Educational background in data science, data analytics, business intelligence analysis, predictive data models and machine learning.

SKILLS & STRENGTHS: Data Model Optimization ■ Data Sampling ■ Data Visualization (Power BI) ■ Machine Learning (ML) ■ Statistical Analysis ■ Python, R & SQL ■ Data Quality Assurance ■ Neural Networks ■ Data Wrangling ■ A/B Testing ■ Predictive Model Design ■ Probability Distributions ■ Data Analysis ■ Dashboards & Reporting ■ Data Warehousing

TECHNOLOGY

Programming: Python (Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn), R (ggplot2, dplyr)**Databases:** SQL Data Extraction, Joins, Queries**Data Analysis & Visualization:** Visualization Tools (Power BI), Data Cleaning, Statistical Analysis, Dashboards**Machine Learning:** Supervised and Unsupervised Learning, Regression, Classification, Clustering, Neural Networks**Statistical Methods:** Hypothesis Testing, Probability Distributions, Data Sampling, Nonparametric Tests**Data Wrangling:** Preprocessing, Feature Engineering, Handling Missing/Dirty Data

EDUCATION

Bachelor of Science (B.S.) in Computer Science | Focus on Data Science (in progress)

Austin Peay State University | Expected 2026

Major Projects include: Chi-Square Test ■ ANOVA Test ■ Hypothesis Testing ■ Logistic Regression ■ Linear Regression ■ Convolutional Neural Network (CNN) Image Classification ■ Support Vector Machine (SVM) ■ K-Means Clustering

Relevant Coursework: Statistical Methods ■ Machine Learning ■ Data Analysis & Visualization using R & Python

Bachelor of Arts (B.A.) in Political Science | Ramkhamhaeng University | 2016

CERTIFICATIONS

Google Data Analytics Certification (Coursera) | **Digital Marketing & E-Commerce Certification** (Coursera)

PROFESSIONAL EXPERIENCE

INTERPRETER: Bromsberg & Associates**2022 – Present**

- Provide real-time interpretations of spoken communications between Thai and English in fast-paced environments requiring quick and precise language interpretation
- Ensure confidentiality, accuracy and neutrality while bridging communication between culturally diverse parties
- Effectively translate complex concepts and idiomatic expressions while preserving original meaning and tone

EXECUTIVE ASSISTANT: WheelHaus**2022 – 2024**

- Provided high-level administrative support for executives, coordinating calendars, travel and meeting preparation
- Prepared and edited correspondence, reports and presentations; managed online systems, content and Excel data
